**SENATOR McNARY GIVES STATEMENT**

NEWLY APPOINTED MEMBER OF CONGRESS TO FILL VACANCY CAUSED BY THE DEATH OF SENATOR LANE TELLS STAND.

A statement issued by Senator McNary before his departure for Washington last night:

"In common with the people of Oregon, I sincerely regret the occurrence that made necessary the appointment of a United States Senator. The death of Senator Harry Lane removes from public life a lovable and aggressive character whose ways were frank and open and who, under all circumstances, performed his duty as he saw it.

I am deeply appreciative of my selection as United States Senator by Governor James Withcomb and am not unmindful of the large responsibility the office enjoins. And while it is my belief that the public welfare would be promoted by a return to Republican principles, I shall go to Washington, not as a narrow partisan to oppose President Wilson, but on the contrary, to support the administration in every legitimate effort it may employ in ending the war to the credit of America, and in bringing about a lasting and honorable peace to all of the nations involved.

While a want of time precludes any elaboration of the various matters that may engage my endeavors, I shall advocate and enlist my efforts in behalf of national equal suffrage and national prohibition, as each of these principles has been adopted by the people of the State which I am selected to represent. I shall cooperate immediately with any movement which has for its purpose the suppression of gambling and speculation in the necessities of life to the end that the consuming public shall pay a fair profit to the producer only.

Knowing that I owe my State whatever service I may render, prompts me to leave for Washington, D. C., within a day."

mechanics, litter-bearers, and the others naturally needed to operate an ambulance corps. The total number of men required is something like eighty-six. A considerable number are already pledged. The total amount of money required to equip this unit is about \$4,800. A substantial amount has already been offered.

"Will you please take this matter up fully with the alumni in your vicinity—both those who might be interested to enlist and those who might contribute, and let us see if, on Alumni Day, June 2 we cannot assure Dr. Kuykendall that the University of Oregon alumni are fully behind him in this matter and that both men and money are forthcoming.

"The responses of other colleges (U. of C. has already sent three small units to France) makes it desirable that the response of the U. of O. be immediate. Please write or telegraph to me at Eugene, care Extension Division, prospects in the vicinity of Klamath Falls, or send word by some one who will be at the Alumni Meeting on Saturday, June 2."

**FEW FOLKS HAVE GRAY HAIR NOW**

DRUGGIST SAYS LADIES ARE USING RECIPES OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we buy this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Adv.

**SPECIAL ADVANTAGES OF LIBERTY BONDS**  
One especial advantage no other bonds, National, State, municipal or corporate, have is that if the United States during the continuance of this war shall issue other bonds at a higher rate of interest, the holders of these liberty bonds have the right to exchange their liberty bonds for bonds bearing the higher rate of interest, dollar for dollar.

**Not a Bite of Breakfast Until You Drink Water**  
Says a glass of hot water and phosphates prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out the thirty feet of bowels the previous day's accumulation of poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember, inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanse, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Adv.

**SEEMS EVERYONE HEARS ABOUT IT**

ALL WANT TO TRY NEW DRUG THAT DRIES UP CORNS SO THEY LIFT OUT

Good news spreads rapidly and drugists here are kept busy dispensing

Freemans, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. A quarter of an ounce costs very little at any pharmacy, but is said to be sufficient to rid one's feet of every hard or soft corn or callous.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissues.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.—Paid ads.

**Views of Boxer Who Died of a Broken Heart**

When Governor Whitman of New York announced that Lee Darcy, the Australian middleweight champion, could not box in New York state "because he was a slacker" a great fighter went on the down grade. Other governors and boxing commissions, in imitation of the New York governor, followed, till Darcy could not get a chance. When he was taken ill in Memphis two weeks ago he declined rapidly. The physicians soon saw there was no hope for him. But those who understood Darcy know well that his disappointments in the United States and Australia killed him. He was roundly scored by Australian papers when he left his country and came to America.
